

Test5

Sections

The student should be able to:

- Draw full, half, offset, removed, and resolved sections.
- Use the hatch command to section the object.
- Add cutting plane lines.
- Know when hidden lines should and shouldn't be drawn in a section.
- Label each view correctly.

Pictorials

The student should be able to:

- Draw an isometric view given orthographic views.
- Add centerlines and center marks when required.
- Know why engineering drawings typically aren't pictorials.
